# Avital 3100 programming manual

Open all vehicle doors. Security and cost-effectiveness Expansions Below are some of the many expansion options available for use with the system. Button Optional accessory function (e.g. trunk releas Resumen del contenido incluido en la p  gina 10 Using the System Remote buttons listed in this manual correspond to a standard remote configuration, unless otherwise specified. 2. Once activated, the LED system status indicator flashes once a second to indicate that the system is active Resumen del contenido incluido en la p  gina 11 times a sensor is activated during the Arming Passive countdown, the countdown starts over. This circuit is designed to avoid repetitive trigger sequences due to faulty port pi Resumen del contenido incluido en la p  gina 15 rity system is activated by a port open for three, complete cycles of 30 seconds (one and a half minute), the system will bypass the ports until the trigger stops. Model 3100L  AsAsArGuideAl  tMOwnersGuideAl  tMOwners  s Summary of content incluido en la p  gina 2 Consumer Limited Life Warranty For a period of one calendar year from the date of purchase of this self-security device, Directed Electronics, Inc. NOTE: The Warning-away response to lighter impacts is ignored if the system is remotely activated/disarm. When testing the system, it is important to remember that NPC  c can cause zones to be circumvented and the appearance does not work. Code Hopping Technology The receiver and remote use Formulas called algorithmals to change their codes whenever the remote control is used. These options manage power windows, sliding them upwards or upwards and downwards. If the factory release is not activated, then the 522T trunk release solenoid can be added in most cases. To disarm the system without a remote control, you need to have the vehicle ignition key and know where the Valet switch is. Audio sensor: metal on glass, vitrification and rupture of glass produce acoustic badges. Enjoy a phenomenal increase in autonomy, even in areas with high radio interference. The 530T also offers one-touch switch operation.   c    Heavy impacts trigger a sequence of trigger, which consists of the siren that plays continuously and the parking lights flash for 30 seconds. Reading this guide carefully before using Distrad Resumen Incluido en La P  gina 8 When using the remote transmitter. N  % The manufacturer n  % Any entity connected to it Resumen of the content incluido en La P  gina 4 This protection against vehicle theft is valid for a (1) year from the date of purchase and is limited to a Only complaint.   c       Note: Armare and disarm the system does not occur when the system is in complete remote controlled silent arm / arm or if the chirping were programmed to not sound. This exclusion includes, but is not limited to the exclusion of any guarantee of marketability    and / or any guarantee of appropriate war for a particular purpose and / or any guarantee of non-violation of patents in the United States of America and / Or abroad. Disarmed without remote control if the remote control is lost or damaged, you can disarm The vehicle safety system. This ensures that the sire resumen of contenido incluido en the p  gina 14 remote-controlled valet can also enter or exit Valet mode using the remote control. 1. 3 important information. The system system guarantees the ORIGINAL BUYER to repair or replace (with a comparable reconditioned model), free of charge, any electronic control module that proves to be defective in workmanship or material during normal use. WHEN THE SYSTEM IS SOLD, INSTALLED, AND SERVICED BY A PROF AUTO INSTALLER, AND REMAINS IN THE CAR IN WHICH THE SYST Summary of contents included on page 3 TO THE MAXIMUM EXTENT ALLOWED BY LAW, ANY AND ALL GARRANTIES ARE ESCLUD- ED BY THE MANUFACT ORIGINE AND EVERY ENTIZATION PARTICIPANT TO THE TEREWITH TRADE flow. Make sure you receive the war card from Resumen del contenido incluido en la p  gina 9 Remote Functions This system is programmable and allows you to assign any remote key to any specific function of the receiver. The LED system status indicator lights up solidly if you are in Valet mode and turns off when you are out of Valet mode. 4. Once Avital Technologies verifies that all the terms and conditions listed above have been met, a check for the insurance Resumen del contenido incluido en la p  gina 5 Table of Contents Consumer Limited Life Warranty . The initial remote control is programmed with standard configuration, but can also be customized by an authorized reseller. Nuisance Prevention Circuitry Your security system features Nuisance Prevention Circuitry (NPC) to prevent annoying false alarms. Programming Options Programming options control the normal operating configuration of the system. The programming options of this system are listed below, with the factory default settings in bol Resumen del contenido incluido en la p  gina 19 key is activated and unlocked when the instrument panel is switched off. To disable the security system, turn on the key and P Resumen of the content included en la p  gina 13 Using the silent arm remotely controlled distance Silent arm/disarm to temporarily turn off the arm chirp or disarm by pressing briefly before arming or disarming. The buttons of all the instructions in this manual correspond to a standard setup remote control. Three seconds after the light turns off, however, normal monitoring resumes. If the power door locks are controlled by the system, the doors also lock. Arming the safety system protects the vehicle in the following degrees:    Luminous impacts trigger a warning response, causing the siren to chirp and the parking lights to flash for a few seconds.    If you open a door, the siren immediately begins to chirp and the Resumen of the content includes the p  gina 12 disables anti-tampering alarm, described in the Diagnostics section of this guide. . Summary of contents on page 6 2 2008 Directed Electronics       Summary of contents on page 7 What is Included    A control module    Two 3-button remote transmitters    A zone 2 impact sensor on-board the control module    A high-powered siren    A fault-proof starter interrupt aboard the control module       a Valet switch button Important information Congratulations on l   buying your vehicle safety system To access the battery to be replaced, remove the rear cover of the remote control with a small flat-blade screwdriver. Disarming Diagnostics Your system has a tampering Functionality which informs you of the system triggers that occur while you are    AW RESUMEN DEL CONTENIDO INCLUIDO EN LA P  GINA 17 ZONE (number of LEDs installed by the retailer) Description Options 1 Instant Trigger for optional sensor, hood or torso pins 2 A heavier impact    detected by the on-board impact sensor 3 port switch trigger port 5 Trigger Power Note: The LED does not indicate when the response that was being warned was activated; Report only activated sequences. If five chirps are heard when D Resumen of the Inclusive Contendid en la p  gina 16 your vehicle has an internal light output delay and you harmonize the system Before the light turns off, you can hear a chirp bypass notification. Be sure to check with the installer at the time of installation for the location of the service immutator. Press again. This guarantee of vehicle theft only applies to the theft of the whole vehicle and specifically excludes other considerations, including, but not limited to, damage caused to the vehicle, theft of parts, contents or other consequential damages. An optional rel   required. This H RESUMEN CONTENT CODE INCLUDES EN LA P  GINA 16 HIGH FREQUENCY Your system transmits and receives at 434 MHz. This provides a cleaner spectrum    with less interference and a more stable signal. Print. The chirp (s) confirmation will come then deleted for this operation only. When the arms of the system, you will hear a short sound of the siren (chirp) and the parking lights will flash once. If the warranty card is not returned, no warranty will be honored on your unit. The warranty of your warranty must be returned and the serial number of the barcode must not be removed. Please consult your dealer for a detailed explanation of all available options. Resumens Audio 506Tf del contidd inclusive EN La P  gina 20 Release of power boot: The output of the system can use a factory power release for the trunk or the vehicle door.
